Athletic Director : David Trujeque - dtrujeque@stem-prep.org

Dear Student-Athlete and Parent(s):

Welcome to Math and Science College Preparatory Athletics!

We are dedicated to enhancing each student-athletes academic performance level, improving positive character traits, instilling accountability and increasing their overall level of confidence through athletic competition.

We are committed to upholding our values as family, agents of change and STEM-thinkers.

We are family.

We build our Legacy by caring, learning from, and supporting each other. As a family, we trust and encourage each other. We demonstrate leadership by being a positive role model for others, listening and valuing the opinions of our teammates, and showing loyalty to our team/family. We exhibit service by being a positive member of our team, school, home and community.

We are agents of change.

We disrupt the status quo by being daring , reflective, resourceful and resilient. We uphold exemplary character and integrity by putting forth our best effort, showing self- control and demonstrating confidence and poise. We equally value scholarship and sportsmanship. Our attitude and commitment allow us to influence ourselves and others to grow academically and athletically.

We are STEM thinkers.

We solve problems through collaboration, innovation, passion, and perseverance. Together, we work to encourage and support each other through every competitive battle. We put forth our best effort. We problem solve to improve and progress in order to succeed.

The MSCP Athletic Program strives to provide positive and memorable competitive experiences for as many Sharks as possible.

GO SHARKS!

David Trujeque
Athletic Director
